SCHOLARSHIP PROGRAM

The American Nuclear Society is committed to helping students in nuclear science and technology fields build a better future through education. Every year, the ANS Scholarship Program awards over $130,000 to help students realize their dreams.

Scholarships are awarded for both undergraduate and graduate study and may be used for education-related expenses, including tuition, fees, books, supplies, room, and board.

Who is eligible?
Undergraduate and graduate scholarships are open to students enrolled in a course of study relating to a degree in nuclear science or nuclear engineering.

U.S. and non-U.S. residents may apply if they are enrolled or planning to enroll in an accredited institution in the United States.

Incoming freshmen awards are open to graduating high-school seniors who have enrolled, full-time, in college courses and are pursuing a degree in nuclear engineering or have the intent to pursue a degree in nuclear engineering.

Selection Process
The recipients will be selected by an impartial scholarship review committee. Winners will be notified by May. Scholarships are non-renewable and must be applied for each year. Preference is given to ANS national student members.
